

# METTECHNIK

One stop solution in Metallurgy Testing

## Auto Control Hydraulic Model

Oil Pressure Type Hot Mounting Press (Hydraulic Type)

With pressurising with Hydraulic Power Pack

Cylindrical And Duplex Moulds

Table Top Model

Operating Pressure 5 bar

Power Supply -230V/50 Hz

Touch Pad For controlling Temperature, Time & Water

Moulding Temperature 200° c Thermostatically controlled

Fast response Heater

Audible warning

Variant Selectable mould size 1.25, 1.5 and 2inch dia.

Robust Chamber closer attachment

Automatic/Manual water cooling

FRP moulded body with Anti-corrosion base

24/7 operation highly reliable in all environments.

We also supply all types of Metallography Equipments
