

METTECHNIK

One stop solution in Metallurgy Testing

HOT MOUNTING PRESS PNEUMATIC OPERATED METTAMOUNT P

Air Pressure Type Hot Mounting Press (pneumatic Type)

Cylindrical And Duplex Moulds

Table Top Model

Operating Pressure 5 bar

Power Supply -230V/50 Hz. Heating coil capacity 1500 watt.

Touch Pad For controlling Temperature, Time & Water. Display indicator for cycle monitoring.

Moulding Temperature 200°C Thermostatically controlled

Fast response Heater. Aluminium moulded heater with inbuilt water cooling arrangement. For good life of heater.

Audible warning for cycle completion.

Variant Selectable mould size 1.25, 1.5 and 2inch dia.

Robust Chamber closer attachment

Automatic/Manual water cooling. Noise free operation.

We also supply all types of Metallography Equipments
