

METTECHNIK

One stop solution in Metallurgy Testing

DOUBLE DISC GRINDING AND POLISHING MACHINE METTAPOL DD

8" Double Disc Polisher

Table Top Design / Continuously Variable Speed

Fully moulded FRP body with easy disc change design

0.5 HP high torque Motor

Imported Drive for smooth speed change

Digital speed indicator - 50 to 800 rpm

Flexible water jet with control valve

Corrosion proof bowl, free flow design

Aluminium Disc Interchangeable

Holding Band

Holding Ring Press Type

Power Supply : 230 V / 50Hz (1 + N + E)

Size: 360x850x310mm

Front Control Panel with feather touch buttons

We also supply all types of Metallography Equipments
